It is worn primarily by Inuit in Alaska and Yukon, and Greenland, and is also popular among Canadian cold climate skiers. In the past, the Canada goose was used to describe this coat in English-speaking Canada. There are several names in Inuit languages for this garment. B. Uggik. C. From Canada. D. Uggik, a short, close-fitting woollen coat with fur trimming. E. Long, hooded, hood is sewn at the back, long fitted coat is worn by males and females alike. F. The ultimate cover up. G. Winterweight, wool, mid-length. H. Uggik in Inuit. I. When skiing in the Arctic, Uggik can be differentiated from other coats of similar style by looking at the end of the sleeves and the trimming around the hem. Uggik are the same length, and will not extend below the knee or above the elbow. It is covered in fur, either real fur or faux fur. Uggik is not so popular now a days in Canada. In the Canadian Environment Agency, Uggik is no longer a "high priority" issue since Canada's Inuit have been finding good employment. If it's cold enough to wear a Uggik, you are probably also too young to wear a hat. Uggik is a style of short woolen coat with fur trimming.
