Just so there's no confusion, that doesn't mean they're really worth anything or they're "illegal"; it just means that the videos don't have any lasting value. That and they may be on a pirated server. 1. Field of the Invention The present invention relates to a car navigation system and a car navigation method, and particularly to a car navigation system and a car navigation method that are capable of informing a driver of a car of an optimal route to a destination. 2. Description of the Related Art In recent years, on the Internet, there is being spread a service that prepares a route (best route) from a point to a destination and guides a car driver by displaying the route. The service provides a plurality of routes for a destination as well as the route to the destination and a route to a preferable stop along the route to the destination. The service provides the route to a stop based on the destination information and the location information of the car. The service converts the car location information detected by a GPS (Global Positioning System) into information in a 82138339de
