Very neat to have a keypad next to a rotary phone. In 1988 I moved to Houston and in our old neighborhood we had three rotary phones in one house. We each had one phone. Since we lived on a hill the wiring of our phones ran down the hill to our neighbor's house. If you needed to talk to someone on the second floor of your house you had to go down the hill. The neighbor had an old phone wired to her phone. You could call that number and it would ring in her house on the second floor and then you would push a button on your phone to talk. So you would hear the conversation but you would not be able to talk to the person on the other side. It was neat and if I could have had a phone like that I would have loved it. I like the
